Husky® Means Quality!

Husky® Bladder Tanks are built with quality and precision in mind. We use only top quality, high grade materials for all our pillow tanks. Every Husky® Bladder Tank is tested and approved by one of our quality control team. As they leave our facility, all bladders are tagged with an inspection ticket showing the date of the test, part number, and the inspector's initials.

Lifetime Warranty**

On all Welds and Weld Seams

Customizable

Husky® Portable Containment will manufacture **custom bladder or pillow tanks** to meet your requirements and specifications. We can build them taller, shorter, wider or longer with virtually any fitting and valve configuration you can come up with. You tell us what you need and our design team will create your custom bladder tank in Auto Cad.

Valves & Fittings

Husky® has a wide array of **fittings** to offer for your **portable tanks, bladder tanks**, etc. We use only the highest quality fittings available, from Banjo polypropylene fittings, top of the line **brass and stainless steel ball valves**, to our exclusive line of 6061-T6 aluminum fittings.

Our **firefighting couplings and flanges** are machined from aircraft quality aluminum and can be ordered with virtually any

thread specification. We also have a complete line of NSF 61 approved fittings for drinking water and food grade products. Husky® has fittings for any requirement, whether it's gray water, black water, potable water, all fuels or chemicals.

- Material: Polypropylene, Schedule 80 PVC, PVC, 6061-T6 Aluminum, Brass, Stainless Steel, Urethane
- Type – rigid female threaded flanges, rigid male threaded flanges, female threaded swivel couplings with flange, bulkhead fittings, RF weld on flanges and fill ports, large access plates with nipple or coupler, camlock fittings, Storz fittings, Bauer fittings, ball valves, gate valves, aluminum and PVC vents, pressure relief valves, flame arrestors, garden hose valves and fittings. Special order fittings available.

Multi-Purpose Liquid Storage

HUSKY's® flexible Bladder or Pillow Tanks have many practical uses. Our potable models are a great option for storing drinking water, and we have other materials specifically for storing fuel or other chemicals. (Learn more about [HUSKY's Fuel Bladder Tanks](#)).

Our **Bladder Tanks, Pillow Tanks, and Potable Water Bladders** have been used on farms, at nurseries, for fire fighting and to provide drinking water for disaster victims.

We can make them small enough to fit in a backpack, or large enough to haul on a railcar.
